Key Features of Budget 2014-2015

THE CURRENT ECONOMIC SITUATION AND THE CHALLENGES

- The state of world economy has been the most decisive factor affecting the fortunes of every developing country.
- The world economy has been witnessing a sliding trend in growth, from 3.9 percent in 2011 to 3.1 percent in 2012 and 3 percent in 2013.
- The economic situation of major trading partners of India, who are also the major source of our foreign capital inflows, continues to be under stress. United States has just recovered from long recession, Euro zone, as a whole, is reporting a growth of 0.2 per cent, and China’s growth has also slowed down.
- The economic challenges faced by our country are common to all emerging economies. Despite these challenges, we have successfully navigated through this period of crisis.
- Apart from embarking on the path of fiscal consolidation, the objectives of price stability, self-sufficiency in food, reviving the growth cycle, enhancing investments, promoting manufacturing, encouraging exports, quickening the phase of implementation of projects and reducing a stress on important sectors were the goals set in 2012-13.

STATE OF ECONOMY

Deficit and Inflation

- The fiscal deficit for 2013-14 contained at 4.6 percent.
- The current account deficit projected to be at USD 45 billion in 2013-14 down from USD 88 billion in 2012-13.
- Foreign exchange reserve to grow by USD 15 billion in this Financial Year
- No more talk of downgrade of Indian Economy by Rating Agencies.
- Fiscal stability at the top of the Agenda.
- Government and RBI have acted in tandem to bring down inflation.
- WPI inflation down to 5.05 percent and core inflation down to 3.0 percent in January 2014.
- Food inflation down to 6.2 percent from a high of 13.8 per cent.

Agriculture

- Agricultural sector has performed remarkably well.
- Food grain production estimated for the current year is 263 million tonnes compared to 255.36 million tonnes in 2012-13.
Agriculture export likely to cross USD 45 billion higher from USD 41 billion in 2012-13.

Agricultural credit to exceed the target of ₹ 7 lakh crores.

Agricultural GDP growth for the current year estimated at 4.6 percent compared to 4.0 percent in the last four years.

**Investment**

- Savings rate at 30.1 percent and investment rate of 34.8 percent in 2012-13.
- Government set up a Cabinet Committee on investment and the Project Monitoring Group to boost investment. By end of January 2014, Projects numbering 296 with an estimated project cost of ₹ 660,000 crore cleared.

**Foreign Trade**

- Despite a decline in growth of global trade, our export have recovered sharply.
- The estimated merchandise export is estimated to reach USD 326 billion indicating a growth rate of 6.3 percent in comparison to the previous year.

**Manufacturing**

- The sluggish import is a matter of concern for manufacturing and domestic trade sector.
- Due to deceleration in investment, the manufacturing sector has witnessed a sluggish growth.
- The National Manufacturing Policy has set the goal of increasing the share of manufacturing in GDP to 25 percent and to create 100 million jobs over a decade.
- 8 National Investment and Manufacturing Zones (NIMZ) along Delhi Mumbai Industrial Corridor (DMIC) have been announced. 9 Projects had been approved by the DMIC trust.
- 3 more Industrial Corridors connecting Chennai and Bengaluru, Bengaluru and Mumbai & Amritsar and Kolkata are under different stages of preparatory works.
- Additional capacities are being installed in major manufacturing industries.
- Notification of a public procurement policy, establishing technology and common facility centres, and launching the Khadi Mark are steps taken to promote Micro Small and Medium Enterprises.

**Infrastructure**

- In 2012-13 and in nine months of the current financial year, 29, 350 MW of power capacity, 3, 928 Kms of National Highways, 39, 144 Kms of Rural Roads, 3,343 Kms of New Railway track and 217.5 million tonnes of capacity per annum in our ports have been created to give a big boost to infrastructure industries.
- 19 Oil and Gas blocks were given out for exploration and 7 new Air ports are under construction.
- Infrastructure debt funds have been promoted to provide finances for infrastructure Projects.
Exchange Rates

- Rupee came under pressure following indications by US Federal Reserve of reduction in asset purchases in May 2013.
- Government, RBI and SEBI undertook a number of measures to facilitate capital inflows and stabilize the foreign exchange markets. As a result among emerging economy currencies rupee was least affected when actual reduction took place in December 2013.

GDP Growth

- The GDP slow-down which began in 2011-12 reaching 4.4 percent in Q1 of 2013-14 from 7.5 percent in the corresponding period in 2011-12 has been controlled by numerous measures taken by the Government. Growth in the third and fourth quarter of the current year is expected to be 5.2 percent and that for the whole year has been estimated at 4.9 percent.
- The declining fiscal deficit, stable Exchange Rate and reducing Current Account Deficit, moderation in inflation, increasing exports are reflection of a more stable economy today.

UPA’s record of Growth

- In India growth is an imperative but sustainable and inclusive growth model must address the concerns of environment, inter generational equity, indebtedness etc.

VISION FOR FUTURE

India poised to be third largest economy along with US and China, to play a leading an important role in global economy.

10 Tasks as part of the road map ahead include:

- Fiscal consolidation: We must achieve the target of fiscal deficit of 3 percent of GDP by 2016-17 and remain below that level always.

- Current Account Deficit: CAD will be inevitable for some more years which can be financed only by foreign investment. Hence, there is no room for any aversion to foreign investment.

- Price Stability and Growth: In a developing economy, a high growth target entails a moderate level of inflation. RBI must strike a balance between price stability and growth while formulating the monetary policy.

- Financial Sector reforms to be completed as laid down by Financial Sector Legislative Reforms Commission.

- Massive investment in infrastructure: to be mobilized through the Public Private Partnership.

- Manufacturing sector to be the base of India’s development: All taxes, Central and State that go into an exported product should be waived or rebated. There should be a minimum tariff protection to incentivise domestic manufacturing.

- Subsidies, which are absolutely necessary should be chosen and targeted only to the absolutely deserving.

- Urbanisation to be managed to make cities governable and liveable.

- Skill development must be given priority at par with secondary and university education, sanitation and universal health care.

- States to partner in development so as to enable the Centre to focus on Defence, Railways, National Highways and Tele-communication.

REVENUES

GST and DTC

Government appeals to all political parties to resolve to pass the GST Laws and the Direct Tax Code in 2014-15

Funding Scientific Research
